Học bổng giỏi HK2: 2020-2021 (3.2x)

## PROJECTS

### **My-CV**

( ReactJS)

#### **Client**

Personal project

#### **Descriptions**

- Functions: download CV, send email, Description of personal information
- Link demo: <https://tuna65-mycv.netlify.app/>
- link source: <https://github.com/Tuna65/My-CVs>

#### **Number of member**

1

#### **Position**

Developer

#### **Responsibilities**

- Build with ReactJS

#### **Technologi**

- Frontend: REACTJS (HTML,CSS, javascripts, grid system)
- Library: Router, Swipper-Slide, motion, emailJS, scroll-react

### **Web cafe**

( ReactJS)

#### **Client**

Personal project

#### **Descriptions**

- Website demo web cafe
- link demo: <https://tuna-cafe-demo-web.netlify.app/>
- link sourc: <https://github.com/Tuna65/Cafe-web-demo>

#### **Number of member**

1

#### **Position**

Developer

#### **Responsibilities**

- Build with ReactJS

#### **Technologi**

- Frontend: REACTJS (HTML,CSS, javascripts, grid system)
- Library: Router, Swipper-Slide, motion, emailJS, scroll-react

## **Travel - web**

( ReactJS)

### **Client**

Personal project

### **Descriptions**

- Function: filter trip, comment, send email
- Link Demo: <https://travel-demo-six.vercel.app/>
- Link Source: <https://github.com/Tuna65/travel>

### **Number of member**

1

### **Position**

Developer

### **Responsibilities**

- Build with ReactJS

### **Technologi**

- Frontend: REACTJS (HTML, SCSS, Javascripts, Grid system)
- Library: Router, Swipper-Slide, motion, emailJS, scroll-react

## **Courses Manager**

( NodeJS )

### **Client**

Personal Project

### **Descriptions**

- Function (add, update, delete, soft delete)
- Use MVC model
- Link Demo:
- Link Source: <https://github.com/Tuna65/couses-nodeJS>

### **Number of Member**

1

### **Position**

Deverloper

### **Responsibilities**

- Deverloper

### **Technologi**

- Backend: JS, MongoDB
- Frame-work: ExpressJS
- Library: Express-handlebars, mongoose, mongoose-delete, mongoose-slug

## Task Manager

( JavaScripts basic)

### Client

Personal project

### Descriptions

- website note task
- Function: add, delete, update, history
- link demo: <https://tuna65.github.io/TaskManagerWeb/>

### Number of member

1

### Position

Developer

### Responsibilities

- Use JS basic build todo list

### Technologi

- Frontend: HTML, CSS, JavaScripts
